Psoriasis and homoeopathic treatment

Dr. Janki Yogesh Doshi,
Associate Professor, Department
of Practice of Medicine
LSFPEF'S Lokmanya HMC,
Chinchwad, Pune-33
drjankidoshi@gmail.com

Psoriasis is most common skin disease. It is a non-infectious, chronic inflammatory disease of skin, with fluctuating course. It is characterized by well-defined erythematous sharply demarcated papules and rounded plaques with silvery scales, especially on extensor surfaces, elbows, knees and on scalp. The lesions are pruritic. Traumatized areas often develop lesions of psoriasis (Koebner's or isomorphic phenomenon).

Aetiology:
Genetic, Familial component
Factors exacerbating the lesions of Psoriasis

Trauma
Infection Beta haemolytic streptococcus
Sunlight
Drugs, antimalarial, corticosteroids, beta blockers, lithium
Stress

Pathology/Histology
Keratinocytes hyperproliferate with grossly mitotic index. Inflammatory cells infiltrate. It may be that hyperproliferation is secondary to inflammatory infiltrate and consequence of inflammatory cell mediators or signalling

Two types of Psoriasis:
Type I: Onset is in teenage and early adult years, with family history of Psoriasis and increased prevalence of HLA group CW6.

Type II: Onset in fifties or sixties, family history is less common, HLA CW6 is not so prominent.

Clinical Features:

Different Forms of Psoriasis are:
Plaque Psoriasis: Most common type stable slowly enlarging plaques, at elbows, knees, lower back, gluteal cleft, scalp flexures, natal cleft, submammary and axillary folds are involved. It is symmetric, presents as well demarcated, red, dry silvery white scales. There can be temporary hair loss. Thimble pitting, on cholysis and subungual hyperkeratosis is common presentation of nails affection. Palms can also be affected.

Guttate Psoriasis: Common in children and young adults. Marked with small erythematous scaling papules, frequently after upper respiratory tract infection with beta hemolytic streptococci. The majority develop plaque psoriasis later in life.

Pustular Psoriasis: Disease may be localized to palms and soles or it may be generalized. The skin is erythematous with pustules. When it is localized to palms and soles easily confused with eczema. Episodes of fever and pustules are recurrent. Onset is sudden with large number of sterile pustules erupting on red

base, resolve to leave brown macules or scaling.

Psoriatic Arthritis: The patients with psoriasis, 30% of them have psoriatic arthritis. Symmetric type arthritis resembles Rheumatoid arthritis. It also can be asymmetric and can involve any joint. Distal interphalangeal predominant (DIP) is a classic form but occurs in 5% of psoriatic arthritis. Arthritis mutilans is severe and deforming. It affects small joints of hands and feet.

Investigations: Skin biopsy. Throat swab for streptococci. Joint symptoms will require rheumatology assessment.

General Management:

Assurance, Ultraviolet Rays

Homoeopathic Approach: Homoeopathy has great scope in Psoriasis. Recurrence and intensity of symptoms can be reduced. Precipitating factors if can be avoided the recurrence of episodes can be reduced. Like skin trauma shall be avoided in a known case of Psoriasis. Stress shall be avoided.

Homoeopathic Therapeutics:

Arsenic Iod: Dry scaly itching skin. Marked exfoliation of skin in large scales, leaving raw exuding surface

beneath. Debilitating night sweats. Watery oozing itching worse washing. Emaciation is marked. Also drug for acne, eczema. Irritating, corrosive, foetid, watery discharges. Also good drug for respiratory complaints.

Sulphur: Itching, scratching ameliorates, feels good to scratch, scratching causes burning. Complaints aggravated from heat of bed. Skin affections that have been treated by medicated soaps and washes. Aggravation from standing, warmth of bed, washing, bathing. Amelioration dry warm weather, lying on right side. Burning of soles is characteristic. Aversion to being washed. Complaints are continually relapsing. All the orifices are red.

Arsenicum Album: Dry scaly cold blue wrinkled, exanthematous, skin with black vesicles and burning pain. Complaints with great prostration, burning pain is marked. Cannot bear the smell and sight of food. Rapid emaciation. Symptoms worse from 1-2 PM, 12-2 AM. Bad effects of decayed food. Complaints return annually. The patient is melancholic, despairing, indifferent, anxious, restless, fearful, sensitive. Mentally restless but physically too weak to

move. Bad effects of tobacco, alcohol, sea bathing, anthrax poison, stings of venomous insects.

Graphites: Unhealthy skin, every injury suppures. Old cicatrices break open again. Eruptions upon ears, between fingers and toes, oozing of watery transparent sticky fluid. Nails are brittle, crumbling, deformed, painful, sore, thick and crippled. Burning stinging pain. Takes cold easily, sensitive to draft of air. Suited to women inclined to obesity, suffers from habitual constipation with history of delayed menses. Aggravation at night, during and after menses.

Petroleum: Skin is rough, cracked. Sensitive skin, slight injury suppures. Painful, itching skin in cold weather. Itching at night. Psoriasis of hands. Redness, rawness, thick greenish crusts. Also good medicine for Eczema, stomach complaints, headache. Long lasting complaints follow mental states, fright, vexation. The patient feels that death is near and must hurry to settle the affairs. Thinks he is double. Irritable, low spirited patient.

Other Homoeopathic Medicines: Rhus tox, Nitric acid, Calc carb, Sepia, Phosphorus.

GURUKUL

Advanced Homeopathic Practitioner Programme

“A once in a lifetime opportunity for homeopathic practitioners starting September 2023**

Gurukul is an ancient pedagogic system where learning is imparted directly from the teacher to the student in a dedicated and focused manner for a certain period of time.

Re-inventing this system Dr. Rajan Sankaran, an internationally renowned Homeopathic practitioner and teacher, who will be guiding all participants in this course personally.

Last Day of Application
15th July 2023

Limited Seats
Only 14 Students
Apply Quickly!

Highlights

- Specially curated keeping a practitioner's schedule in mind.
- Access to The Sankaran Masterclass, synergy software, books authored by Dr. Rajan Sankaran.
- Live and online case taking sessions.
- Residential in person sessions at Hidden Oasis, Pune.
- Online mentoring sessions with Dr Sarah and Dr Kyle every month customized to suit each student's need.
- Certificate of participation.

Eligibility criteria

- Indian nationals residing in India.
- Candidates should have completed their BHMS with a minimum 2 years of work experience.
- Commitment of 8 hours/week exclusive to the course. (There will be a complete in-depth assessment of each student during the course)

The selection criteria will be in 2 steps

- Application form - short essay, case analysis.
- Interview rounds.

This is a one-year programme (offline and online)

REMEDIES WITH RAJAN

A New World of Materia Medica with the Master
Dr. Rajan Sankaran

Here we are with 6th Season!

Dr. Sankaran talks about various drug pictures in a beautiful synergistic way, integrating the idea inherited by masters with the concepts of the sensation method. In the most simplistic and easy way, we bring here the most awaited valuable lessons of our Materia Medica for homeopaths across all generations.

6th Season Starting from
AUG 2023

The practical, comprehensive understanding of remedies by Dr. Rajan has made many institutions, colleges, and groups of homeopaths to subscribe to the RWR series.

Thousands of homeopaths and students learn regularly from RWR series and have shared their experiences.

Alternate Sundays
6th, 20th Aug
3rd, 17th Sept
8th, 15th Oct

7 pm to 8 pm IST

Remedies Covered

In Season 1 to 5 are:

Season 1	Season 2	Season 3	Season 4	Season 5
